

## W15: Forum on the relevance of geophysical uncertainty in exploration

**Coordinator(s)** David Annetts, Juerg Hauser

---

**Date(s)** Mon, Sep 02

---

**Time** 08:45 - 16:45

---

**Location** Crown Perth

---

**Summary** This forum reviews concepts of uncertainty quantification, decision making under uncertainty and their relevance for problems faced by explorers. Speakers will include academics focusing on the development of efficient algorithms for uncertainty quantification and practitioners who are faced with making exploration decisions under uncertainty and can identify exploration relevance.

---

**Schedule\***

Theoretical aspects of uncertainty quantification

Practical aspects of uncertainty quantification

Case studies

---

**Terms and conditions**

\* Schedule subject to change

Workshops will proceed only if minimum numbers are reached, should a workshop be cancelled that you have paid and registered for, you will be notified and refunded the full amount. Should you wish to cancel a workshop, standard registration cancellation policy applies. Please refer to the AEGC conference website for registration cancellation policy and for further details on registration information <https://2019.aegc.com.au/>
